

SIDE PANELS FOR MEDICAL CABINETS

With **Tonon by Pegasus Medical** side panels your cabinets will now accommodate ISO trays and baskets to fit your available space.

TILT FUNCTION

Modules can tilt when pulled out, so they are easier to access and use, especially the ones at the top of the cabinet.

Modules will then return to their standard positions to assure maximum storage capacity per cabinet.

DIMENSIONS

Side panels are available for 40 cm and 60 cm deep cabinets:

- Type E = 40 cm
- Type U = 60 cm

Different heights are possible using individual segments.

MATERIAL

ABS plastic.
Injection-molded.
Abrasion-resistant.
Light-weight, recyclable.

PANEL WHEELS

Panel wheels (optional accessory) can be added without tools to your side panel even after installation.

They make modules easier to pull out for loads over 5 kg up to 15 kg. For very heavy loads, please use telescopic slides.

SIDE PANELS FUNCTIONALITY

Variable arrangement of modules.

Optimal use of storage space.

Ergonomic.

Provides well-organized and less expensive storage.

Tall cabinet accommodates up to 15 baskets measuring 60x40x10 cm.

CUTTING PANELS

The "Tilt" panels (both type E & U) can be cut using preexisting cutting lines for smaller sections both in depth and in height.

Small cut panels are often used for 30 cm depth cabinets and for over cupboards.

STOP FUNCTION

The stop function prevents the modules from accidentally falling out when pulled.

Two stop positions possible for both horizontal and tilt position.

FLEX PANELS

4 INSERTIONS

For horizontal or angled basket insertion.

SYMMETRICAL

Left or right.

ACCESSORIES

Support wheel for "flex" side panel (PNLWHEEL)
