

# PROCEDURE CARTS

Our Procedure Cart is highly adjustable – both in terms of drawer configuration and compartment configuration. The system is completely modular in terms of bin and drawers, as well as handle colors and drawer fronts. All drawer compartments are made of ABS plastic and completely removable for stock replenishment and cleaning purposes.

## PREMIUM PROCEDURE CART

The Premium Procedure cart is configured to the basic 5-drawer, fully equipped with: key lock, IV pole, worktop with side shelf to easily increase the work surface, push handle, wastebasket, Side Basket and tilt-bin holder

### Accessories included in the configuration

- Worktop & side shelf
- Tilt-Bin Holder 2
- IV Pole
- Push Handle
- Side Basket
- Waste Basket

### PROCEDURE CART PLUS

The Procedure cart Plus is similar to the Premium Procedure cart configuration but less accessorised. Configuration designed for more basic and less complex needs but accessories can be added on request

#### Accessories included in the configuration

- Standard worktop
- IV Pole
- Push Handle
- Side Basket
- Waste Basket

### BASIC PROCEDURE CART

The cart is equipped with a removable standard worktop for easy cleaning, with one drawer of 20cm (8"), and 4 drawer 10cm (4") for storage.

#### Accessories included in the configuration

- Standard worktop
